

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

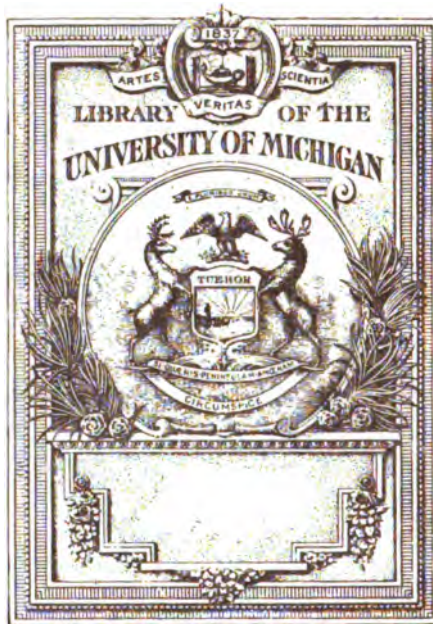

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## SUMMARY OF FACTORIES AND WORKSHOPS.

## INSPECTED IN 1919 AND COMPARISON WITH THE INSPECTION OF 1918.

Number of factories and workshops inspected in 1919.....	16,405
Number of factories and workshops inspected in 1918.....	15,592
Showing an increase of 813 factories and workshops inspected.	
Number of men employed as superintendents in 1919.....	18,932
Number of men employed as superintendents in 1918.....	17,492
Showing an increase of 1,540 superintendents.	
Average daily wages paid superintendents in 1919.....	\$8.30
Average daily wages paid superintendents in 1918.....	7.22
Showing an increase of \$1.08 per day.	
Number of foremen employed in 1919.....	22,033
Number of foremen employed in 1918.....	18,682
Showing an increase of 3,351 foremen.	
Average daily wages paid foremen in 1919.....	\$6.66
Average daily wages paid foremen in 1918.....	5.09
Showing an increase of \$1.57 per day.	
Number traveling salesmen employed in 1919.....	6,804
Number traveling salesmen employed in 1918.....	6,048
Showing an increase of 756 traveling salesmen.	
Average daily wages paid traveling salesmen in 1919.....	\$7.23
Average daily wages paid traveling salesmen in 1918.....	6.23
Showing an increase of \$1.00 per day.	
Number boys between 14 and 15 years of age employed in 1919.....	439
Number boys between 14 and 15 years of age employed in 1918.....	393
Showing an increase of 46 boys between 14 and 15 years of age.	
Average daily wages paid boys between 14 and 15 years of age in 1919...	\$1.61
Average daily wages paid boys between 14 and 15 years of age in 1918...	1.56
Showing an increase of 5c per day.	
Number boys between 15 and 16 years of age employed in 1919.....	1,105
Number boys between 15 and 16 years of age employed in 1918.....	1,103
Showing an increase of 2 boys between 15 and 16 years of age in 1919.	
Average daily wages paid boys between 15 and 16 years of age in 1919...	\$1.86
Average daily wages paid boys between 15 and 16 years of age in 1918...	1.72
Showing an increase of 14c per day.	
Number boys between 16 and 18 years of age employed in 1919.....	7,437
Number boys between 16 and 18 years of age employed in 1918.....	7,788
Showing a decrease of 351 boys between 16 and 18 years of age in 1919.	
Average daily wages paid boys between 16 and 18 years of age in 1919...	\$2.84
Average daily wages paid boys between 16 and 18 years of age in 1918...	2.46
Showing an increase of 38c per day.	
Number of men over 18 employed in offices in 1919.....	24,922
Number of men over 18 employed in offices in 1918.....	21,496
Showing an increase of 3,426 men in offices.	
Average daily wages paid men in offices in 1919.....	\$5.71
Average daily wages paid men in offices in 1918.....	5.08
Showing an increase of 63c per day.	

Number of men over 18 employed on skilled labor in 1919.....	228,190
Number of men over 18 employed on skilled labor in 1918.....	218,905
Showing an increase of 9,285 men employed.	
Average daily wages paid men over 18 employed on skilled labor in 1919..	\$5.63
Average daily wages paid men over 18 employed on skilled labor in 1918.	5.19
Showing an increase of 44c per day.	
Number other men over 18 employed in 1919.....	256,640
Number other men over 18 employed in 1918.....	236,438
Showing an increase of 20,202 men employed.	
Average daily wages paid other men over 18 in 1919.....	\$4.60
Average daily wages paid other men over 18 in 1918.....	3.73
Showing an increase of 87c per day.	
Number of women employed as superintendents in 1919.....	973
Number of women employed as superintendents in 1918.....	891
Showing an increase of 82 women superintendents.	
Average daily wages paid women as superintendents in 1919.....	\$3.15
Average daily wages paid women as superintendents in 1918.....	2.79
Showing an increase of 36c per day.	
Number foreladies employed in 1919.....	1,231
Number foreladies employed in 1918.....	1,346
Showing a decrease of 115 foreladies.	
Average daily wages paid foreladies in 1919.....	\$3.44
Average daily wages paid foreladies in 1918.....	2.67
Showing an increase of 77c per day.	
Number girls between 14 and 15 years of age employed in 1919.....	125
Number girls between 14 and 15 years of age employed in 1918.....	102
Showing an increase of 23 girls between 14 and 15 years of age.	
Average daily wages paid girls between 14 and 15 years of age in 1919....	\$1.47
Average daily wages paid girls between 14 and 15 years of age in 1918....	1.26
Showing an increase of 21c per day.	
Number girls between 15 and 16 years of age employed in 1919.....	566
Number girls between 15 and 16 years of age employed in 1918.....	548
Showing an increase of 18 girls between 15 and 16 years of age.	
Average daily wages paid girls between 15 and 16 years of age in 1919....	\$1.71
Average daily wages paid girls between 15 and 16 years of age in 1918....	1.46
Showing an increase of 25c per day.	
Number of women over 16 employed in offices in 1919.....	24,077
Number of women over 16 employed in offices in 1918.....	21,337
Showing an increase of 2,740 women in offices.	
Average daily wages paid women in offices in 1919.....	\$2.94
Average daily wages paid women in offices in 1918.....	2.44
Showing an increase of 50c per day.	
Number other women over 16 employed in 1919.....	69,179
Number other women over 16 employed in 1918.....	71,125
Showing a decrease of 1,946 other women employed.	
Average daily wages paid other women over 16 in 1919.....	\$2.63
Average daily wages paid other women over 16 in 1918.....	2.19
Showing an increase of 44c per day.	

Whole number employed in 1919.....	662,653
Whole number employed in 1918.....	623,688
Showing an increase of 38,965.	
Average daily wages paid in 1919.....	\$4.82
Average daily wages paid in 1918.....	4.14
Showing an increase of 68c per day.	
Aggregate daily wages paid in 1919.....	\$3,115,272.09
Aggregate daily wages paid in 1918.....	2,521,181.82
Showing an increase of \$594,090.27.	

### NUMBER PERSONS EMPLOYED, HOURS WORKED, MINIMUM AND MAXIMUM NUMBER EMPLOYED, POWER STATISTICS, ETC.

Number inspections made in factories and workshops.....	16,405
Number men under 18 employed.....	8,981
Number men over 18 employed in offices.....	24,922
Number all other men employed.....	532,599
Number women employed.....	96,151
Whole number employed.....	662,653

Average hours boys under 18 work per week.....	48.6
Average hours men over 18 in offices work per week.....	47.1
Average hours all other men work per week.....	50.8
Average hours women work per week.....	48.8
Minimum number employed during year.....	592,706
Maximum number employed during year.....	723,100

#### Months operating at a minimum capacity:

January.....	2,054	July.....	1,307
February.....	1,897	August.....	1,143
March.....	1,421	September.....	571
April.....	961	October.....	578
May.....	876	November.....	917
June.....	1,067	December.....	1,594

#### Months operating at a maximum capacity:

January.....	950	July.....	1,690
February.....	1,041	August.....	1,757
March.....	1,381	September.....	2,189
April.....	1,771	October.....	2,102
May.....	1,895	November.....	1,719
June.....	1,775	December.....	1,210

Number accidents occurring during the year.....	35,166
---	--------

#### Kind of power used:

Electricity.....	8,077
Steam.....	2,313
Gasoline.....	1,254
Water.....	222

Estimated strength in horsepower.....	2,838,483
Number boilers used.....	5,730
Number boilers insured.....	5,142
Number boilers equipped with low water alarms.....	5,614
Number permits on file for children between 15 and 16 years of age.....	1,109
Number limited vacation permits on file for children between 14 and 15.....	367

# COAL MINE INSPECTION.

---

---

December 1, 1919.

Hon. Richard H. Fletcher, Commissioner of Labor, Lansing, Michigan:

DEAR SIR:—In compliance with the law of the State of Michigan, I respectfully submit for your consideration my annual report as State Coal Mine Inspector for the year beginning December 1st, 1918 and ending November 30th, 1919.

#### MINES IN OPERATION.

During the year there were twenty-two mines in operation. These mines are located as follows: Seven in Bay County. Eight in Saginaw County. One in Tuscola County. One in Genesee County. Three in Shiawassee County. One in Calhoun County and one in Eaton County.

#### LABOR CONDITIONS.

The year 1919 stands out prominently as one of the most turbulent years in the mining industry of Michigan, and at the present time the organized and some of the unorganized coal miners of the United States, which includes the miners of Michigan are tied up in a national coal strike. With the State facing a fuel shortage on the verge of winter it makes the situation a critical one. It will mean the closing of factories and shops an absolute certainty if continued for any length of time. During April and the greater part of May of this year a major portion of the mines of Michigan were on strike and the strike was not settled until the National Officials of the miners organization were called upon to get the operators and miners together to try and bring about an adjustment of the controversy. The officials solved this problem by getting the men to return to work with the assurance that there would be a satisfactory adjustment made, which the men accepted.

In November of 1918, when the Armistice of the World War was signed, the mines of Michigan began to operate about half time due to the fact that there was no demand for coal and during April and May of this year when the major portion of the mines were on strike the mines not effected by the strike order or dispute, did not operate full time. About July 1st, the mines of Michigan began to operate full time and continued in operation until November 1st, when all of the mines of Michigan went on strike and apparently on November 30th, 1919, the operators and miners are farther apart from a basis of settlement than they were on November 1st.

#### NEW MINES.

There were two shafts opened in the State during the year, one is a small mine located two miles east of Corunna. The product will be retailed at the mine. The other shaft is located in Jackson County on what is known as the Strand farm, three miles west of the city of Jackson. The output will find a ready market in the city of Jackson and vicinity. It will be known as the Howland Coal Company, with Harry Bacon as manager. The company from Detroit who started to put a shaft down six miles east of Owosso have abandoned operations on the same.

## MINES ABANDONED.

There were three mines abandoned during the year 1919. The Robert Gage No. 6 and the Wolverine Mine No. 3 both located in Bay County and the American Sewer Pipe mine located at Grand Ledge, Eaton County. Two mines suspended operations during the year. The What Cheer No. 2, located in the city of Flint and the Liberty Coal Company Mine, located three miles east of the village of Henderson. I have been informed that this mine will resume operations early in 1920.

## GENERAL CONDITIONS.

The general conditions of the mines remain much the same in 1919 as they were in 1918. All the mines of Michigan are provided with escape shafts with travelling ways thereto from the main or hoisting shafts as provided for by law with the exception of the Community Mine, located five miles west of the village of Chesaning and I have been informed by the management of this mine that arrangements have been made to put down an escape shaft in the near future.

I find the mining laws being complied with fairly well at all of the mines and all precautions are being taken to prevent accidents to men employed.

## TONNAGE FOR THE YEAR.

Total number tons of picked coal mined during the year 65,290. Total number tons of machine coal mined during the year 906,313. Total number tons of coal mined during the year 971,603 at the aggregate cost of \$3,323,046.73.

## ACCIDENTS.

In the year 1919 a total of 252 accidents were reported to this department. Three of which proved fatal. One occurred in December 1918, one in January 1919 and one in March 1919. Serious 16, Severe 103, and Slight 130.

This is a notable decrease in the number of fatal accidents over the year 1918 and it is to be hoped that the coming year will set a greater decrease in the number of fatal accidents in the coal mines.

## COURTESIES EXTENDED.

The work during the year has at nearly all times been most pleasant for me in the discharge of my duties. I have met with the most courteous treatment at all times from the miners in general and also from the Superintendents and Mine Foremen, for which I want to thank them. I have at all times found the mine Superintendents willing to co-operate with me in making any improvements which would be of benefit to the men employed.

I wish to repeat what former Inspectors have said in regard to the People of Michigan using Michigan coal and that is that the people of Michigan should use their own product and help build up an industry that is worthy of home patronage.

In conclusion I wish to express to you my sincere thanks for the courtesies extended to me and I want to thank your office force for the assistance and courtesies accorded me during the past year.

Yours respectfully,  
A. K. SMITH,  
Digitized by Google  
Mine Inspector.
